

Permit-Required Confined Space Entry Permit

Field template. Complete before every entry.

This is a field tool that supports online theory training. It does not authorize entry. Permit-space entry requires your employer's written program, atmospheric testing, and trained, evaluated personnel.

Space & Entry Identification

Space / ID	Date
Location / Facility	Permit valid until
Purpose of entry	

Hazard Assessment (check all present)

☐ Oxygen deficiency / enrichment	☐ Flammable atmosphere	☐ Toxic atmosphere
☐ Engulfment	☐ Mechanical / stored energy	☐ Electrical
☐ Thermal / heat	☐ Configuration / entrapment	☐ Other: _____

Atmospheric Test Results (test BEFORE and monitor continuously)

Time	Oxygen 19.5-23.5%	Flammable <10% LEL	CO <25 ppm	H2S <10 ppm	Tester

Test order: Oxygen first, then flammable gases, then toxics. If any reading is out of range, do NOT enter. Ventilate and retest.

Controls Verified

☐ Isolation / blanking	☐ Lockout/Tagout complete	☐ Ventilation running
☐ Lines drained / purged	☐ Lighting (rated)	☐ Communication method set

Personnel & Rescue

Entrant(s)	Attendant
Entry Supervisor	Rescue service / method

Entry Supervisor signature (authorizes entry)

Date / Time

Cancel the permit when the job is done, conditions change, or any hazard cannot be controlled. Retain per your employer's program.
